

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

1. (Previously Presented) A roll of tickets comprising:
  - a tube, and
  - a plurality of tickets wrapped around the tube, the plurality of tickets having interconnected ends defining rows of perforations therebetween, the plurality of tickets being formed from a substrate having a caliper characteristic between 5 and 8 points and an opacity characteristic of less than 98%.
2. (Original) The roll of tickets of claim 1, wherein the roll comprises 2000 tickets.
3. (Original) The roll of tickets of claim 2, wherein the diameter of the roll is less than 6.5 inches.
4. (Original) The roll of tickets of claim 1, wherein the substrate is reply card stock paper.
5. (Original) The roll of tickets of claim 1, wherein the caliper characteristic is 7.
6. (Withdrawn) A method of manufacturing a roll of tickets, the method comprising the steps of
  - unwinding a portion of a roll of paper, the paper having a caliper in the range of 5 and 11 points and an opacity of less than 98%,
  - feeding the unwound portion of paper through a printer,
  - cutting the paper to form strips of paper, and
  - perforating the strips to form separable tickets therebetween.
7. (Withdrawn) The method of claim 6, further comprising the step of re-winding the tickets in rolls of 2000.
8. (Withdrawn) The method of claim 6, further comprising the step of folding the tickets to form a deck of tickets.
9. (Withdrawn) The method of claim 8, wherein the deck comprises 3000 tickets.

10. (Original) A roll of tickets comprising:  
a tube, and  
a plurality of tickets wrapped around the tube, the plurality of tickets having interconnected ends defining rows of perforations therebetween, the plurality of tickets being formed from a substrate having an opacity of less than 98%.

11. (Original) The roll of tickets of claim 10, wherein the opacity is approximately 95%.

12. (Original) The roll of tickets of claim 10, wherein the opacity is approximately 97.5%.

13. (Original) The roll of tickets of claim 10, wherein the substrate is reply stock paper.

14. (Cancelled).

15. (Currently Amended) The roll of tickets of claim [[14]] 10, wherein the diameter of the roll is less than 6.5 inches.

16. (Original) The roll of tickets of claim 10, wherein the roll comprises 1000 tickets.

17. (Original) The roll of tickets of claim 16, wherein the diameter of the roll is less than 4.5 inches.

18. (Previously Presented) The roll of tickets of claim 10, wherein the substrate has a caliper characteristic in the range of from 5 to 8 points.

19. (Previously Presented) A plurality of tickets comprising:  
a sheet of reply card stock paper having a caliper in the range of from 5 to 8 points and having perforations defining detachable tickets therebetween.

20. (Cancelled).

21. (Previously Presented) A plurality of tickets comprising:  
a strip of reply card stock paper having an opacity of less than 98% and having perforations defining detachable tickets therebetween, the strip being folded along at least some of the perforations to form a deck of tickets.

22. (Previously Presented) The tickets of claim 21, wherein the caliper characteristic is in the range of from 5 to 8 points.

23. (Previously Presented) The tickets of claim 21, wherein each ticket has a marking imprinted thereon for triggering a light and sensor ticket-counting device.
